# Go Green with

# WIND & SUN

Let us together make earth a better place to live

# Goodbye, BIG Electricity BILL

India has huge demand for power consumption & with growing demand, alternate energy manufacturing is become a crucial market. WindSun eco Systems is a globally respected, multi disciplinary renewable energy consultancy with a reputation for engineering and technical excellence. We aim to be most trusted brand in global infrastructure development market, providing the best quality products and services. Our products are Hybrid Wind Mills, Rooftop On Grid Net Metering Solar Energy System, Off Grid, Hybrid Solar Energy Systems, Solar Water Pumps, Solar Water Heater, CSP System, Solar Led Light.

> 'WindSun' Your Reliable & **Renewable Energy Partner**

Successful project delivery is at the heart of all we do and our expert engineers provide full 360° solar project

life cycle engineering services and benefits:-

## Why WindSun???

We provide one stop solution to all your energy needs. Including plant Feasibility Study, System Design, Integration, Energy Consultancy and O & M contracts. All our staff are MNRE certified. System components meet all required industry standards. Our designed customized systems with dedicated services can enhance aesthetic looks of your premises.

- Eco friendly method of power generation.
- Get 30% government Subsidy.<sup>#</sup>
- We can easily & safely install it on any type of roof.
- ◆ 30% Income tax depreciation benefit.
- Remote Monitoring of system.

- 25 years Solar panel efficiency warranty.

**Always With You** 

### We make promises that we can keep, and we keep our promises.

### **Rooftop On Grid Solar Net Meter Systems**

#### 1.Solar Panel Converts Sunlight to DC Current.

- 2.Inverter converts Electricity DC to AC.
- 3. Take electricity your home requires.
- 4.Extra electricity export on grid.

## Tell your electricity rates to stick it where the Sun shines..

Such systems could be installed on society terraces, sheds of factories, common amenities, hotels, building, bungalows, penthouses, hospitals etc.

Wherein the electrical energy generated by this solar system will be used by the customer or exported to the grid.

# We reduce your monthly electricity bills by - 100%

### & assure recovery of invested amount within 2-3 yrs.

The meaning of Net Metering Solar Energy System is a billing mechanism that credits solar energy system owners, for the electricity they add to the grid. Because solar energy system makes your electricity bill equals to zero. With this, you only pay for the electricity that you use beyond what your solar
